

## Questions About Medicare ?

Are you already tired of all those companies sending you mountains of information on Medicare? Do you want help making some sense of it?

My name is **Sheri Younker** and I specialize in Senior Products including Medicare Supplements, Medicare Advatage and Part D prescription plans. I represent multiple carriers so I can find the **right fit for YOU!** There is no “One size fits all plan” for anyone so I find out what your needs are and recommend products that fit those needs. I don’t charge anything for my services. That is correct, it is **FREE**, the Carriers pay commision for which ever product you like. My job, if you allow me, is to provide you with choices that will be the best fit for your income, health and life style. I don’t just want to help you get started though, I am here to answer your concerns all year long and to make sure that you have the correct plan each year based upon plan changes.

Here is a little about me. I have made Mesa my home for over 35 years with the love of my life Steve. We raised two great girls who have grow up moved on and have families of their own. Their spot has been filled by our 2 large black labs.

I got started in the business in a rather unique way. I have been a licensed Massage Therapist for over 25 years. My company is **Stress Managemnt By Sheri**. Many of my clients were stressed out toward the end of the year and asked me if I knew anything about Medicare. They were so confused with so many options that I wanted to help them out. In 2008 I became a licensed insurance agent here in the state of Arizona. It has been a very rewarding career helping my senior clients and others navigate the Medicare maze. I also help people with **individual health plans, short term plans and those who need coverage through the Affordable Care Act (Obama Care)**

Let me help you out. Maybe you are still working, there may be questions that still need to be addressed. Is my employer insurance making me go on Medicare? If not how do I defer it? Is Medicare better than my employee plan? What happens if I want to go on Medicare and not take Social Security? All of these are great questions that I can help you answer. Remember my company is **Stress Management** and that is exactly what I want to do for you. So instead of spending hours wading thru all that Medicare mail make one call.

**Call or text (602) 397-8480**

**stressfreemedicare@hotmail.com**

I’m looking forward to talking to you soon.

Sincerely,

Sheri Younker
